

Thank-you for your interest in connecting to the OptiComm Fibre Connected Community. As a member of this community you will be able to receive all your broadband, telephone and entertainment services¹ over a single fibre optic cable.

Please complete this checklist and fill out the address of the property, sign and fax to

03 90249599 or scan and email to ccid@opticomm.net.au

I/We, _____ am/are the owner(s) of the property, or have been specifically authorised by the owner of the property located at _____

and hereby authorise OptiComm Co Pty Ltd to proceed with an installation of ONT, enclosure and power supply to the property for the purposes of connecting to the Fibre Optic Network. I/We have confirmed with the builder that the premises has been prepared in accordance with our published specifications and the following conditions have been met:

<input type="checkbox"/>	A continuous undamaged white Telecommunications P20 conduit (ID 23.3mm) has been installed and connected to the OptiComm starter pipe and terminated in a clear area on the side of the building, directly below where the internal conduit (see point 3 below) protrudes from the wall.
<input type="checkbox"/>	The conduit is installed at a minimum depth of 300mm; uses rounded bends (No 90 Degree bends); extends at least 300mm but no more than 1600mm above ground level and is saddle clamped to the exterior wall and has a free draw wire installed end to end.
<input type="checkbox"/>	An Internal or flexi conduit has been installed between your nominated installation location for the Network Termination Device (or ONT) and the external conduit mentioned above; is at least 300mm but no more than 1600mm above ground level; and is fitted with a draw wire.
<input type="checkbox"/>	A GPO (Power Outlet) has been installed in the garage near the nominated installation location for the Network Termination Device.
<input type="checkbox"/>	A Licensed Telecommunications cabler has terminated, tested and labelled ALL cables and has provided a completed and signed Telecommunications Cabling Advice notice (TCA1 Form).
<input type="checkbox"/>	I/We have a Structured Cabling System (SmartWired™) installed in our house. Between the Home Distribution Unit and our nominated NTD location there is installed a minimum of one Cat5e cable labelled as data and terminated with an RJ45 connector; one Cat5e cable labelled as telephone and terminated with two RJ12 connectors; and one RG6 Quad Shield cable terminated with a Foxtel approved F-Type connector.
OR	
<input type="checkbox"/>	I/We have no Structured Cabling System but the builder has installed the cables between our chosen rooms and nominated NTD location: Home Office (or other location) - one Cat5e cable labelled as data and terminated with an RJ45 connector; Kitchen (or other location) - one Cat5e cable labelled as telephone and terminated with two RJ12 connectors; Living Room (or other location) one RG6 Quad Shield cable terminated with a Foxtel approved F-Type connector.

I/We agree that should any of the above specifications not be met a Failed Installation Fee of \$97 including GST will be charged by OptiComm. We will have to undertake to rectify the issue, and then rebook a new appointment once the corrective actions have been completed and the Failed Installation Fee is paid.
