

Your tenancy is serviced by the OptiComm super-fast Fibre to the Premises Network.

The OptiComm FTTP network provides Australia's fastest home internet. The network also delivers phone, free to air and FOXTEL services and no TV antennas or satellite dishes are required.

NSW

Lendlease has selected OptiComm to provide Fibre to the Premises (FTTP) communications and television network access. The equipment you need to start enjoying superfast internet and TV will be pre-installed by OptiComm at your tenancy. See below for a typical installation layout for your shopfitter.

Who is OptiComm?

OptiComm is a licenced telecommunications carrier that operates and maintains FTTP networks. OptiComm is fully compliant with government regulations and offers a superfast alternative to the National Broadband Network (NBN).

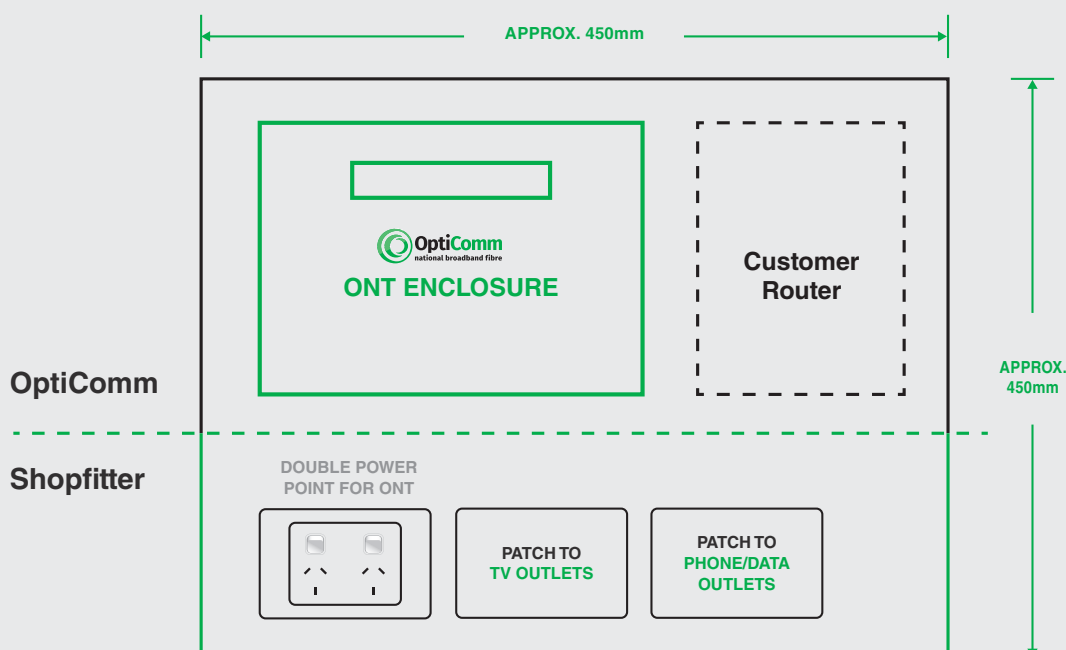

Getting Connected

Now you have Fibre to the Premises, you'll need to choose your Retail Service Providers (RSP) for phone, internet and Pay TV.

Here's how to do it...

1. You'll find a handy list of providers on the OptiComm website www.opticomm.net.au.
2. Sign up directly with the provider/s you want. If you don't want a service e.g. Pay TV, you don't have to get it connected.
3. Tell your RSP that you're located in an OptiComm development and be sure to provide your address in this format: Shop X, XX Street Name, Suburb, State, Postcode.
4. Once you've signed up with your provider/s, they'll work with OptiComm to get you up and running.
5. Your retailer might send you equipment to be installed, or arrange to come to your tenancy and complete the process.

Need Help? Contact the OptiComm on-site Project Manager or Call Centre on **1300-137-800**.

Congratulations on your move.

Your tenancy is serviced by OptiComm's super-fast fibre to the premises network.

Contact one of the service providers below to sign-up:

NSW

Be sure to mention you are on an OptiComm FFTP Network
